of service in  
Third Party Distribution

## RGF Logistics Ltd

### Environmental Management System

**RGF Logistics Limited** believes that environmental management is one of the highest corporate priorities and that we conduct all aspects of our business as responsible stewards of the environment. We have integrated the principles and practices of conserving our natural resources and reducing pollution as essential elements of our management, corporate culture, and community relations.

Our principles are:

#### Compliance

It is the policy of RGF Ltd to manage all of its activities to meet or surpass the standards of all relevant environmental laws and regulations, and other requirements.

#### Continuous Improvement

We have established measurable environmental improvement goals and targets and regularly monitor and review our environmental performance in existing and new operations.

We strive for cost-effectiveness in environmental management by improving operations, and by promoting changes to our operations that impact on the environment.

#### Pollution Prevention

We take into account potential impacts on the environment when making decisions.

#### Communication

We provide training and education to our employees to ensure that they can work safely, efficiently, and in an environmentally friendly manner.

We communicate openly with employees, clients, the public, government, and regulatory agencies concerning the company's environmental performance and improvement plans.
